The Course Performance Descriptors

Teachers will use their professional judgement in applying the Course Performance Descriptors to determine students' final grades. They describe the main features of a typical student's performance at each level of achievement measured against the syllabus objectives and outcomes for that course.

The five columns contain descriptions of different levels of student achievement of the syllabus objectives and outcomes. The descriptions range from **Limited Achievement** to **Outstanding Achievement**. The descriptors are expressed in positive terms to emphasise what students can, rather than cannot, do. Each course of study has its own specific Course Performance Descriptors, a copy of which can be obtained from Head Teachers or classroom teachers. Below are listed the generic Course Performance Descriptors as issued by the Board of Studies.

Grade	General Performance Descriptors
A	Outstanding Achievement The student has an extensive knowledge and understanding of the content and can readily apply this knowledge. In addition, the student has achieved a very high level of competence in the processes and skills and can apply these skills to new situations.
B	High Achievement The student has a thorough knowledge and understanding of the content and a high level of competence in the processes and skills. In addition, the student is able to apply this knowledge and these skills to most situations.
C	Sound achievement The student has a sound knowledge and understanding of the main areas of content and has achieved an adequate level of competence in the processes and skills.
D	Basic achievement The student has a basic knowledge and understanding of the content and has achieved a basic level of competence in the processes and skills.
E	Limited achievement The student has an elementary knowledge and understanding in few areas of the content and has achieved very limited competence in some of the processes and skills.

Attendance in relation to the satisfactory completion of a course

If a student's attendance falls (usually below 85% of a school's programmed lesson time for a course) the Head Teacher of a subject may determine that, as a result of absence, the course completion criteria may not be met due to the student not showing sustained effort and diligence. Clearly, Head Teachers, who will give students early written warning of the consequences of unsatisfactory course completion, will regard absences seriously. The warning will relate to the student's non-completion of course requirements.

Where a student's attendance pattern may jeopardise the satisfactory completion of a course(s), the reason for absence and its likely effect on the student's course progress will be established. The Principal will consider:

- The nature and duration of the absence;
- The standing of the student within the course at the time of the absence;
- The student's prior pattern of attendance, application and achievement;
- The ability and commitment of the student to compensate for the classroom experiences missed.

Leave may be granted to cover absence from the school's educational program for short periods, provided that the reason for the absence is substantial and that the progress of the student towards course outcomes will not be unduly affected.

When the Principal grants leave, such leave should not, of itself; jeopardise the student's eligibility for the School Certificate.

Non-award of the Record of School Achievement

In the following cases the Board will not award the Record of School Achievement. Depending on the circumstances of the case, the Board may also not award one or both parts of the Record of School Achievement if the student:

- (a) Did not meet all mandatory curriculum requirements;
- (b) Left school before the final date for Year 10;
- (c) Did not comply with other Board requirements.

The Students Responsibilities

Students are required to perform **ALL tasks**, whether they are formal tasks listed in this booklet or any other task given by the classroom teacher as required, to the best of their ability and to sit for all tests and examinations scheduled as part of this assessment program. It is expected that all work submitted will be the student's own work. Any suspicion of malpractice will be viewed with grave concern.

Although the times for most tasks are listed in this document, teachers will generally give prior notice of any upcoming assessment tasks. Where assessment tasks are scheduled during school time, students are expected to be at school on that day and to present themselves at the place and time scheduled for the completion of the task. **Failure to do so may result in a ZERO MARK being awarded for that task**, unless the following procedures are followed:

If a student is aware beforehand that they will not be at school on that day, prior application to the class teacher concerned, for permission to complete an alternative task, must be made in writing **BEFORE** the day of the task. An appropriate form is included in this booklet (see *Appendix A – 2nd last page*). When making such an application, it should **NOT** be assumed that permission would automatically be granted.

If a student is absent, sick or a misadventure occurs, on the day of an assessment task, they will need to furnish a written note from their parent or guardian stating the nature of the illness or misadventure **OR** a doctor's certificate as further evidence, on the **first day of return**.

Where assessment tasks are scheduled to be completed at home and handed in by a due date, failure to meet the deadline may result in a **ZERO MARK** being awarded for that assignment. If circumstances are such that a student will find it impossible to meet the deadline, **PRIOR** application must be made at least **THREE DAYS** prior to the deadline for an extension of time to be granted. An appropriate form is included in this booklet (see *Appendix B – last page*). Once again, it should **NOT** be assumed that such an application would automatically gain an extension of time. **Extensions will only be granted for extenuating circumstances.**
