

Dear Parents/Caregivers

Permission to undertake General Construction Induction Training (GIT)

Students undertaking structured work placement as a part of a Construction Industry Curriculum Framework HSC course, or other students undertaking work experience where construction work is carried out, are required to complete General Construction Induction Training (GIT). To successfully complete this training a student must successfully complete the unit of competency *CPCOHS1001A Work Safely in the Construction Industry*.

Upon successful completion of the training, students apply to WorkCover NSW for the General Construction Induction Training (GIT) Card, previously known as the "Construction Induction Card" or "White Card". WorkCover NSW will send the GIT Card to the student's home address. In the meantime, the student will be issued with a WorkCover Statement of Training which a student may use as proof of completion of the training. This Statement of Training is valid for 60 days after the completion of the training.

It is a legal requirement that students must have on their person at all times, when carrying out construction work, either a General Construction Induction (GIT) Card or a valid Statement of Training to prove completion of General Construction Induction Training. Students must not go out on work placement or work experience unless they can comply with this requirement.

To register your child for the General Construction Induction Training course outlined below, please complete the Permission Slip and return to the school office with payment of the course cost.

Please Note: This course runs out of school hours, commencing at 8.00am. Students **MUST** be at school at 8.00am sharp. If students catch the bus, other arrangements must be made on this date.
